No special surveys of the localities referred to have been taken. The old survey plans available of 55' to 1" and 110' to 1" have been used in preparing the Bangalore city Sewerage Scheme and only Nos. 7 to 10 have been included in this Scheme. Nos. 1 to 6 have not been included as these are scattered outlying hamlets, and it is quite impracticable to include these in the City Sewerage Scheme. As suggested by the President these may be surveyed with a view to providing drains and improving their Sanitation, each being treated on its own merits
